

Making cool things happen.

A woman with long brown hair, wearing an orange hoodie, is smiling and holding a glass of beer with a blue sleeve. The background is a plain, light grey.

Chill at it's Core

"There's no denying it- we are in an age where consumers are more educated than ever at making discerning purchasing decisions. Flooded with choice and information, they want goods and services to come to them in the most efficient and seamless way possible. Being tired and stagnant is no longer an option. You either innovate or die."

Andrew Wade, Chill Managing Director.

Since opening in 2000, we've made a commitment to doing things differently, and doing things better. We're in the business of making cool things happen.

When it comes to storing and transporting temperature-controlled products in top condition, it's already complex enough. Where we really excel is in the last kilometer, those tricky deliveries that require some local knowledge or little extra love.

We specialise in refrigerated transport, storage and logistics, equipment rental, vehicle builds and experiential marketing solutions, solving client's problems creatively and transforming the ordinary into moments that matter. Regardless of the assignment, quality is our non-compromising obligation.

We are CHILL. Your trusted advisor to the last mile.

.....and that's just for starters!

Experiential Marketing

Andrew, Maddy and the Chill team exceeded all our expectations. They're professional, accountable and flexible in all the best ways. They're an extension to our business and thoroughly enjoyable to work with."

Rockstar - Kira Patchett, Account Manager

We're active listeners and we'll work with you to ensure that all of your promotional logistics are handled flawlessly. We've been providing end-to-end logistics management for Experiential Marketing campaigns for almost two decades, so there is virtually no risk in venturing into unknown territory.

If you have a common desire to push boundaries, challenge the status quo and develop products that aim to improve the human experience, we're your leading supplier.

It All Starts With a Nescafe

On behalf of our client, Nescafe, Maverick Experiential Agency approached Chill to bring their clients brief to reality. Their aim? To bring the Nescafe 'in home' experience to 'out of home' and to engage with their fans across the full consumer Journey.

Chill were assigned to build and fit out a Mercedes Cab Chassis with a beautifully styled modern cafe on the back. Essentially, it became the first ever Nescafe roaming cafe. Travelling all the way from QLD down the East Coast of NSW to VIC and back. The truck brought the Nescafe brand experience to shopping malls, gyms, events, and sporting grounds and the product in the hands of their consumers.

Refrigerated Transport & Logistics

A photograph of a Chill logistics worker, a man wearing a dark polo shirt with the Chill logo and sunglasses, carrying two stacked boxes. The boxes are labeled 'FREEZER' and 'CHILL'. He is standing next to a white refrigerated truck. The truck's side panel features the phone number '1300 we chill' and the website 'www.chill.com.au'. The background shows a brick wall and a loading dock area. The entire image has a blue color overlay.

The dedicated Chill team have worked tirelessly with our operations team to accommodate our needs and have been extremely professional in doing so. I would strongly recommend their services to any company thinking of using their services". - Dave Hillen CEO for Foodies Australia

The last mile is the most crucial step in the journey to your customer. Which is why partnering with an experienced & trusted company such as Chill, make us the perfect choice for your important front-end responsibility.

Chill provide a suite of specialised transport services that you can count on each and every time.

Chill is able to offer a comprehensive range of temperature controlled transport services:

- Express & scheduled cold/frozen courier services (local & interstate door to door).
- Dry, chilled or frozen vans -20°C (small consignments or pallets).
- Temperature controlled vans & trucks (2-24 pallets).
- Stock pick-ups & transfers (A to B movements, any size).
- Logistical integration between cold storage facility & mobile activations & events.
- Bulk pallet transport from manufacturer or dry store to cold storage facilities (locally & interstate).
- Refrigerated van & truck hire for short or long term rentals.
- Experience & expertise in technical installation.
- Covering all aspects of roadshow & exhibition set care, preparation, electrical setup, troubleshooting, repairs & maintenance.
- Satellite & temperature tracking for the highest level of efficiency & accountability.

Cold & Dry Storage

**5 warehouses in 5 states.
Modern facilities.
The backbone and core
strength of Chill is our network
of strategically located cold
storage facilities. Short or long
term rental options. Pallet
picking and inventory
management. It is no wonder
why our warehouses are laden
with the most well-known
brands.**

Full service storage & handling facilities across all states:

- Nationwide cold, dry, frozen and temperature controlled.
- Short or long term requirements.
- NSW dedicated Wine & Confectionery room storage from +12°C to +18°C.
- Single pallet storage to large contract managements of hundreds or even thousands of pallets.
- Frozen storage -20°C and Chilled storage to 0-4°C
- Loading/unloading of 20ft & 40ft containers (including receipt, handling & dispatch).
- Specialised handling requirements (including pick/pack, re-packaging, palletising and shrink-wrapping).
- Order picking pallets & cartons.
- Stock rotation & stock inventory.
- 24 hour back to base security systems & temperature alarm monitoring.
- High clearance & semi trailer access.

Refrigerated Equipment Rental

"You benefit from our combined 40 years of sales, service and support."

Lauren Wade - Director

Chill has grown to become a leading service provider to Australia's most loved festivals & events.

We supply new and ex-hire refrigeration equipment for sale, and specialise in long and short-term mobile refrigerated equipment, including temperature-controlled trucks & vans.

Our expertise isn't just limited to sales and rentals. We also custom build mobile and skid coolrooms to meet your requirements from design to delivery and installation. With over 40 years of combined experience in the event industry, there is no problem we can't solve for you.

Chill's range of promotional accessories are second to none. Whether you are sampling your product in the heart of summer or just need to keep things nice and cool. Chill has you covered with industry leading equipment:

- Food safe transport vehicles, coolrooms, contemporary containers and display fridges and freezers.
- Near new rental fleet.
- Short or long term rentals.

We are passionate about protecting this earth and her fragile environment. We believe the global food chain is a process ripe for rapid improvement.

Planet Chill is at the heart of who we are. It is personal and important to us. We have made a pledge to make a positive contribution to the environments and societies in which we operate in.

PLANET CHILL'S VISION

A shared vision towards sustainable practices and a sharper focus on business model innovation.

PLANET CHILL'S MISSION

Going green. All commercial vehicles and trucks to run on green renewable energy by the end of the decade. We're committed and passionate to be part of the OzHarvest Mobile Markets mission by keeping the food at the right temperature for longer and redistributing to vulnerable communities as an essential part of solving the food waste problem while mobilising Chills refrigerated assets for an incredible cause.

PLANET CHILL'S VALUE

- To educate the community around conscious living
- To encourage Chill staff to lead meaningful lives for good health and sustainable wellbeing
- To train our people in sustainable work behaviours
- To work with our clients to improve sustainable outcomes
- To lead by example. Not for the accolades but because it is our non-compromising obligation.
